

TO BE OR LIVE ENLIGHTENED IS A CONSCIOUS, DELIBERATE, EDUCATED AND/OR INFORMED CHOICE. YOU CHOOSE. CHOOSE TO BE OR LIVE ENLIGHTENED.

ENLIGHTENED GOVERNING IS A CONSCIOUS, DELIBERATE, EDUCATED AND/OR INFORMED CHOICE. YOU CHOOSE. CHOOSE TO GOVERN IN AN ENLIGHTENED WAY.

To be enlightened means to be good to yourself, others (family, friends and neighbors), nature (minerals, plants and trees and animals), Humanity (all neighbors) and planet Earth (earth, water and air), which gives us our daily bread (food), water (drink) and breath (air). Planet Earth is our Home, our Backyard, our Hub of Life (general) and our Lifeline. Planet Earth is a Gift to Humanity. Take good care of it. Your body is your Temple, your backyard, your hub of life (personal) and your lifeline. Your body is a gift to you as an evolving soul. Take good care of it.

To be enlightened means to have good behavior, a good attitude, a good, healthy, integrated, balanced open mind, generous heart and righteous will in life as a human being person or personality. As a human being you will have no attachments through cherishing, desire, judgement or emotion. You will have no material, physical or mental attachments. Your state of human-beingness is expressed through goodness, beautifulness, truthfulness, joyfulness, peacefulness, love and forgiveness. Good people make mistakes, do wrong things or make bad choices sometimes. This is part of being human; this is part of human life. You are here to learn and grow from your mistakes, misdoings, wrongdoings, mishaps, errors or omissions. You apologize, you show remorse, you acknowledge and understand your bad or wrongdoing, you make amends or restitution, you restore or reconcile and redefine your relationship, you love yourself healthily, you forgive yourself and you do not repeat. As an enlightened person you will have a "do good" list with good deeds and random acts of kindness and goodness.

As a human being, you will be good to yourself and others equally, to work together and share everything. You will be the best version of yourself or the best person or personality you can be. You will live your best-life-scenario according to situation and circumstances. You will save yourself as an evolving soul. This will lead to soul transformation. You will rise above being human. You will be a mature, integrated soul.

As Humanity, you will be good to each other equally, to work together as nations and share everything in a mutually beneficial, win-win cooperative, peaceful coexistence. The World will live its best version of itself or the best World it can be. Humanity, nature and planet Earth will live its best-World-scenario. Humanity will save itself as an evolving planet. This will lead to a soul planet. Souls will live amongst the humans, animals, plants and trees, bacteria and minerals. This is the next cycle of evolution.

Good must be seen here as a consensual, logical, commonsensical and conscious or applied goodness or kindness. There are many so-called "ethical" and "moral" values that are accepted or considered to be "good" within ethnic and religious populations. This doesn't necessarily mean that they are "good" or "enlightened" values.
