

The journey of the evolving soul in full detail

The evolving soul who you are in the earthling “human being” degree of Cycle 1

You can see how everything is connected in your aura system.

The impersonal or non-personalized peripheral “all-thought” or “proton void” at the end of the human aura system is connected to the central “no-thought” or “H0-neutron void” at the beginning of the human aura system through the 3 x 2 crystal cords (x, y and z), which connect the “consciousness”, soul who you are and human body you have in your primary aura of Life system. The crystal cords end at the living proton void, which lies at the end of your aura system and begin at the molecular proton-photon-**H0-neutron** complexes, which lie at the beginning of your aura system. It connects or anchors all the aura parts.

The centre of the “head” of the impersonal or non-personalized “consciousness” or “living light” or “mind” in the human aura system is connected to the centre of the “head” of the impersonal or non-personalized soul who you are through the golden cord. **The human body that you have has no “consciousness”. The soul who you are has “consciousness”.**

It connects to the body through the chiasma opticum indirectly and ends at the central proton-photon-H₀-neutron complexes and peripheral lightweight electrons, energies and lights in all the molecules of the CNS and PNS.

The centre of the “chest” of the soul who you are is connected to the centre of the “chest” (bifurcate) of the human body you have through the silver cord. The soul who you are brings or gives “life” to the body you have. **The human body is not alive. It is death or brings Death.**

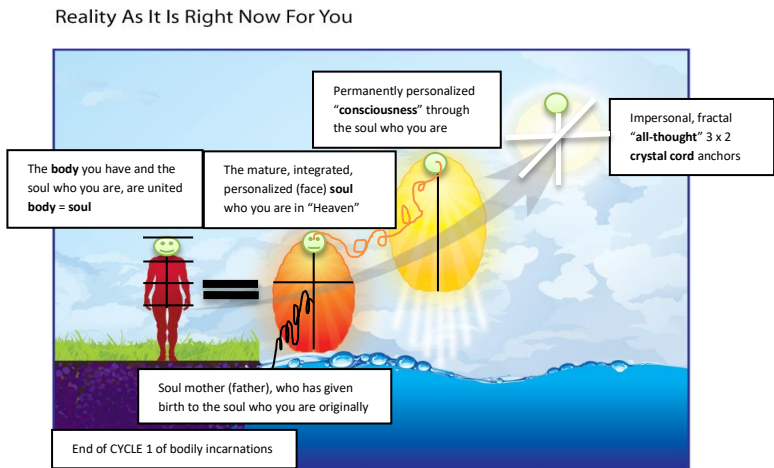

The silver cord begins at the “soul” or “living energy” or “heart” in your aura system, connects to the “body” (bifurcate) directly and ends at the living energy effect of the lightweight electron.

The centre of the “abdomen” (jejunum) of the body that you have was connected to the uterus placenta of your birthmother (father), who gave birth to your body, through the umbilical cord.

The umbilical cord begins at the “body” or “living electron” or “will” in your aura system, connects to the “mother” (uterus) directly and ends at the living electron cause of the lightweight electron.

The 3 x 2 crystal cords are your solid anchors. The golden and silver cords are “spaghetti-like” cords like the umbilical cord. All the cords will break off at the moment of the physical “human being” death.

Effect of human enlightenment, soul consciousness and transformation; ending of Cycle 1 bodily incarnations

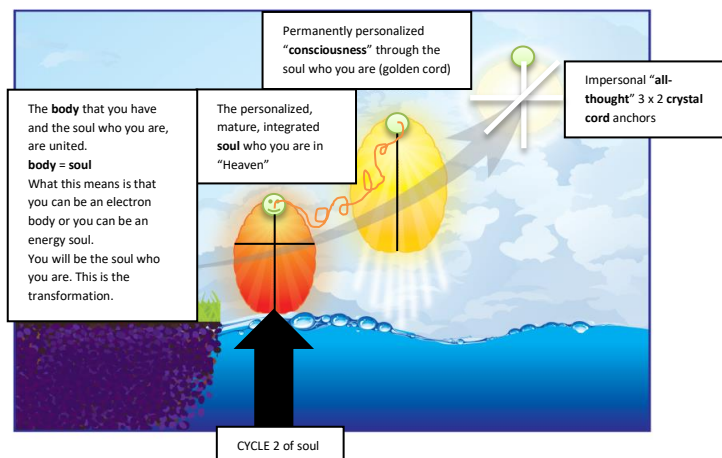

Human enlightenment and soul consciousness are the ticket to reach a white aura system. You are now a mature, integrated soul who you are with an eternal name, a face, a personality identity and a permanently personalized "consciousness" or "mind".

THIS IS THE FUNCTION OF HUMAN LIFE!

THIS IS THE SOUL-BODY TRANSFORMATION

The evolving soul who you are in the earthling “soul being” degree of Cycle 2

Reality As It Is Right Now For You

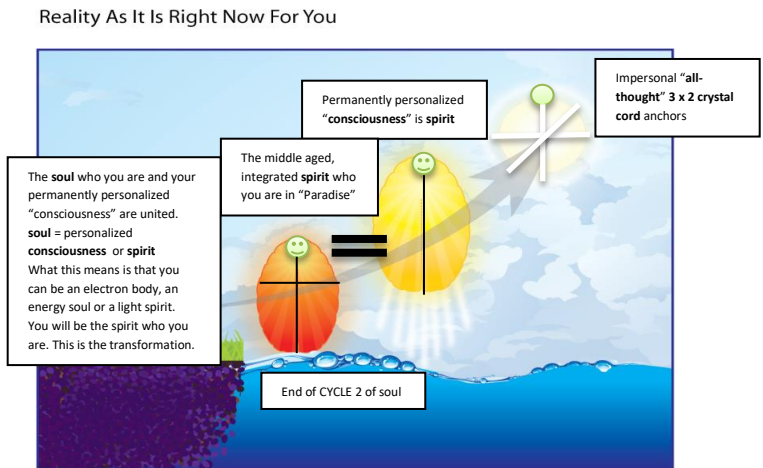

You can see how everything is connected in your aura system.

The impersonal or non-personalized peripheral “all-thought” or “proton void” at the end of the human aura system is connected to the central “no-thought” or “H0-neutron void” at the beginning of the human aura system through the 3 x 2 crystal cords (x, y and z), which connect the personalized “consciousness” and soul who you are in your primary aura of Life system. The crystal cords begin at the living proton void, which lies at the end of your aura system and end at the molecular **proton**-photon-**H0-neutron** complexes, which lie at the beginning of your aura system. It connects or anchors all the aura parts.

The centre of the “head” of its permanently personalized “consciousness” or “living light” or “mind” in the human aura system is connected to the centre of the “head” of the personalized soul

(face) who you are through the golden cord. **The mature soul who you are has now a permanent “consciousness”**. The golden cord begins at the “living light” or “consciousness” or “mind” in the soul’s aura system and ends at the proton-photon-H₀-neutron complexes and the living energy and light effects of the lightweight electrons.

Effect of soul enlightenment, spirit consciousness and transformation; ending of Cycle 2 soul

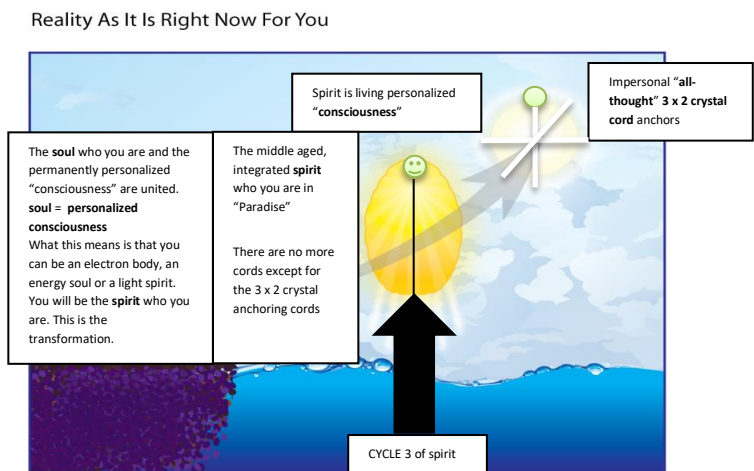

You can see how everything is connected in your aura system.

The impersonal or non-personalized peripheral "all-thought" or "proton void" at the end of the spirit's aura system is connected to the central "no-thought" or "H0-neutron void" at the beginning of the human aura system through the 3 x 2 crystal cords (x, y and z), which connect the personalized "consciousness" who you are in your primary aura of Life system. The crystal cords begin at the living proton void, which lies at the end of your aura system and end at the molecular **proton-photon-H0-neutron** complexes, which lie at the beginning of your aura system. It connects or anchors the aura part.

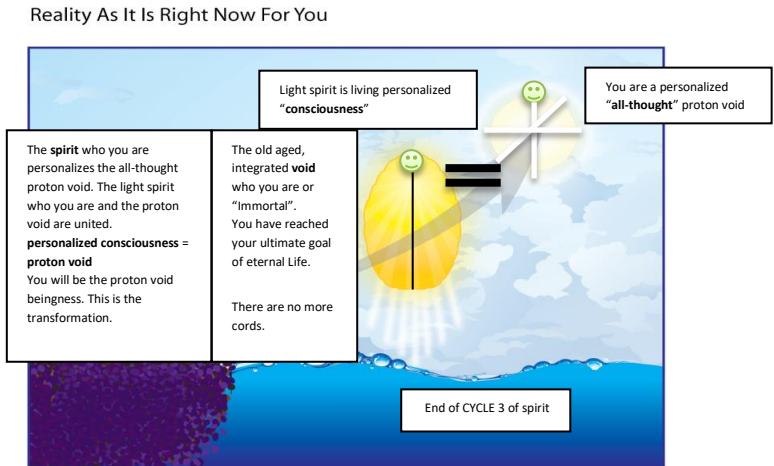

The spirit who you are is living "consciousness". The soul who you were and its personalized "consciousness" are now one or united or are the same. This is spirit. This is the transformation.

The evolving higher soul who you are in the earthling “spirit being” degree of Cycle 3

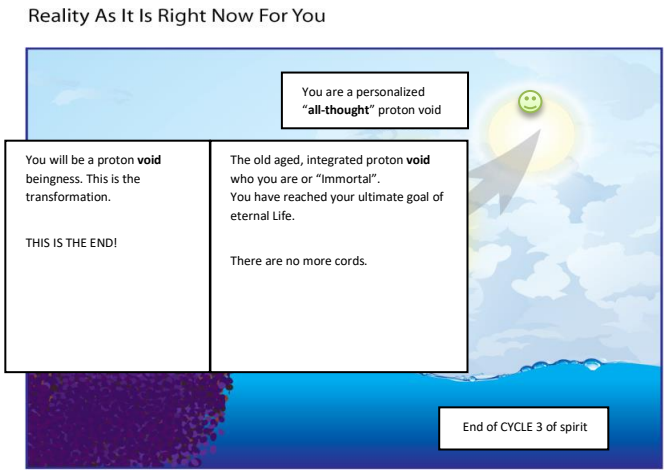

This is the end of Cycle 2 of soul. You are spirit or personalized consciousness starting Cycle 3

Effect of spirit enlightenment, void consciousness and transformation; ending of Cycle 3 spirit

This is the end of Cycle 3 of spirit. You are a living proton void or "Immortal" You will have eternal Life. This is the function of Life. The impersonal proton "all-thought" void unites with the personalized consciousness or spirit who you are. You are now a personalized proton "all-thought" void. You are "all-conscious". You are pure "beingness" without an electron body, energy soul or light spirit being.

Effect of spirit enlightenment, void consciousness and transformation; ending of Cycle 3 spirit

This is the end of Cycle 3 of spirit. You are void or "Immortal" You will have eternal Life. This is the function of Life or eternal Life. The function of Creation is Life.
