

THE FORGOTTEN OR LOST KNOWLEDGE

The process of human enlightenment and soul consciousness in detail

The WCPC facilitates human enlightenment, soul consciousness and body-soul transformation paving the road for planet Earth to become a “soul” planet, where “souls” will live amongst the humans, animals, plants and trees, bacteria and minerals. The soul reality consciousness is the next level or stage of our natural evolution. Living the life of a human being is a level or stage in the life of the soul who you are. You are an evolving soul. You have a human body. You can only reach this level or stage when you choose to live and govern in enlightenment. This is a deliberate, conscious, educated and/or informed choice. **This is the lost or forgotten knowledge.**

The enlightenment and "no cruelty" membership-donor clause is an agreement that you sign with the World Centre for Positive Change (WCPC) promising to live the enlightened Life and to become a member-donor of the WCPC family or Army of "Soldiers of Good".

The WCPC enlightenment and "no cruelty" clause

TO BE OR LIVE ENLIGHTENED IS A CONSCIOUS, DELIBERATE, EDUCATED AND/OR INFORMED CHOICE. YOU CHOOSE. CHOOSE TO BE OR LIVE ENLIGHTENED.

ENLIGHTENED GOVERNING IS A CONSCIOUS, DELIBERATE, EDUCATED AND/OR INFORMED CHOICE. YOU CHOOSE. CHOOSE TO GOVERN IN AN ENLIGHTENED WAY.

For the evolving soul the “human being” degree is the battle between “good” and “bad”. “Good” means a white aura system. “Bad” means a black aura system. A white aura system means you get to continue your journey as an evolving soul. A black aura system means you cannot continue. In the “human being” life the soul who you are remembers its soul reality consciousness. This is the real awakening. You become soul conscious. You wake up to the soul who you are.

To be enlightened means to be good to yourself, others (family, friends and neighbors), nature (minerals, plants and trees and animals), Humanity (all neighbors) and planet Earth (earth, water and air), which gives us our daily bread (food), water (drink) and breath (air). Planet Earth is our Home, our Backyard, our Hub of Life (general) and our Lifeline. Planet Earth is a Gift to Humanity. Take good care of it. Your body is your Temple, your backyard, your hub of life (personal) and your lifeline. Your body is a gift to you as an evolving soul. Take good care of it.

To be enlightened means to have good behavior, a good attitude, a good, healthy, integrated, balanced open mind, generous heart and righteous will in life as a human being person or personality. As a human being you will have no attachments. You will have no self-cherishing, desire, judgement, emotion or egoic reactions. Your state of human-beingness is expressed through goodness, beautifulness, truthfulness, joyfulness, peacefulness, love and forgiveness. Good people make mistakes, do wrong things or make bad choices sometimes. This is part of being human; this is part of human life. You are here to **learn** and **grow** or evolve from your mistakes, misdoings, wrongdoings, mishaps, errors or omissions. You apologize, you show remorse, you acknowledge and understand your bad or wrongdoing, you make amends or restitution, you restore or reconcile and redefine your relationship, you love yourself healthily, you forgive yourself and you do not repeat. As an enlightened person you will have a “do good” list with good deeds and random acts of kindness and goodness.

As a human being, you will be good to yourself and others equally, to work together and share everything. You will be the best version of yourself or the best person or personality you can be. You will live your best-life-scenario according to situation and circumstances. You will save yourself as an evolving soul. This will lead to soul transformation. You will rise above being human. You will be a mature, integrated soul.

As Humanity, you will be good to each other equally, to work together as nations and share everything in a mutually beneficial, win-win cooperative, peaceful coexistence. The World will live its best version of itself or the best World it can be. Humanity, nature and planet Earth will live its best-World-scenario. Humanity will save itself as an evolving planet. This will lead to a soul planet. Souls will live amongst the humans, animals, plants and trees, bacteria and minerals. This is the next cycle of evolution.

Good must be seen here as a consensual, logical, commonsensical and conscious or applied goodness or kindness. There are many so-called "ethical" and "moral" values that are accepted or considered to be "good" within secular, ethnic and religious populations. This doesn't necessarily mean that they are "good" or "enlightened" values.

The WCPC no-cruelty clause

I choose to never be cruel, which is the intentional infliction of suffering caused by any kind of harm, hurt or pain done to myself or others, or being a not-so-innocent bystander watcher. I choose to live my life in an enlightened way. I choose to live my life consciously and conscientiously. Visit www.positive-change.ca for details

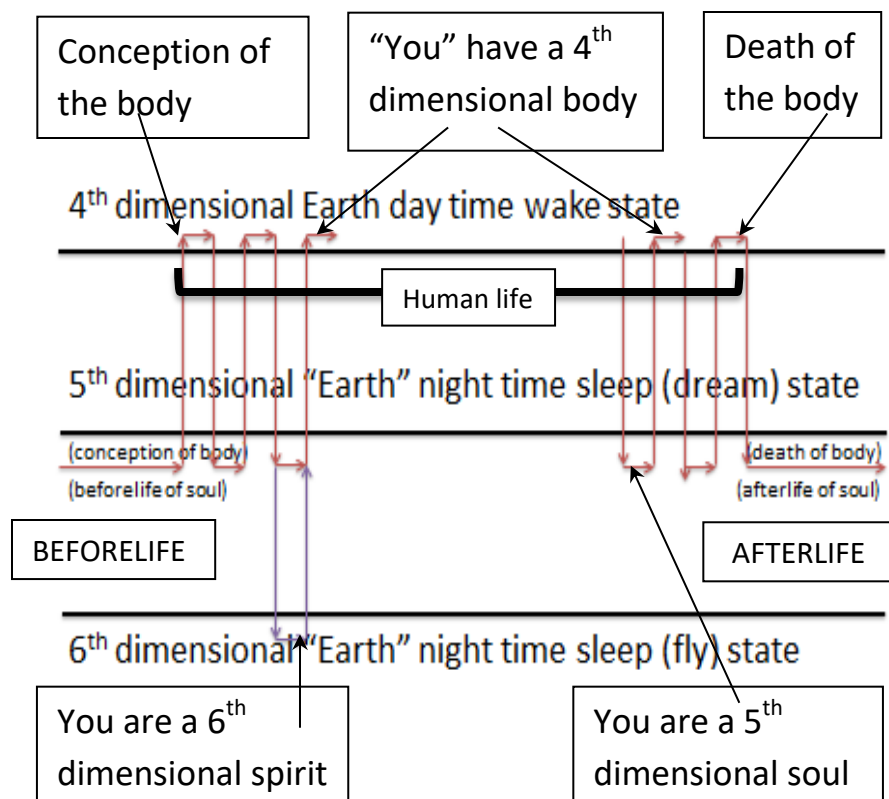

To be enlightened means to be good. To love is to be good to yourself and others equally. To be enlightened means to have a good attitude towards life, good behavior in life, a good, healthy, balanced open mind, generous heart and righteous will.

To be enlightened means to admit your wrongdoings, misdoings and mistakes, apologize, show remorse, learn and grow from your mistakes, make amendments, self-correct, self-forgive and to not repeat.

To be enlightened means to live to be an example for others; to live in service for ourselves and others equally.

To be enlightened means to have a "do good" list of good deeds and random acts of kindness and goodness.

To be enlightened is to be in healthy love with yourself and others equally and to healthily love your life.

This picture visualizes the beforelife, "dream" "sleep" nightlife and afterlife of the soul who you are and the birth (conception), "wake" daylife and death of the body you have.

You are an evolving soul. You have a body vehicle. You are an evolving soul going through the "human being" degree. You are in the school of "humanbeingness", which is the degree between "good" and "bad". Good souls will, by following the path of **human enlightenment** and **soul consciousness**, be rewarded a white, integrated aura system. You are fully enlightened and soul conscious and you will have completely risen above your "ego" or "human condition". You will be the best person-ality human being you can be and live your best-human life-scenario. You will be the best version of yourself. You will save yourself.

After having lived the "Life" for a while with a white, integrated aura system color you will receive your **REWARD**, which is that the impersonal, fractal consciousness or "mind" in your aura system will harvest the soul who you are. As a soul you will now have permanent "consciousness", which is personalized through the mature, integrated soul who you are. You will receive an "eternal" personality identity with a face and a name. You are the mature, integrated soul, at first expressed through the human "flesh" and then, transforming the human "flesh" **body** into the mature, integrated **soul** who you are. The human body that you have and the mature, integrated soul who you are **unite** or become one and the same. This means that you can be a body on Earth or a soul in Heaven or both. This is the process of soul realization and liberation. This is the body-soul transformation. You will end or free yourself from the cycle 1 of bodily incarnations and start cycle 2 of "soulbeingness".

This is the goal of all human life.

An evolving soul going through the “human being” degree has to choose to be “good” or live in human enlightenment to finish or finalize its degree. There is no other choice or way. The most important part of living a “human being” life is to wake up to the soul who you are or become soul conscious. The process of human enlightenment reveals the soul who you are. Soul consciousness can start or can be the consequence of the process of human enlightenment. Recognizing and working on becoming the soul who you are, will bring forth time-consciousness. You will start noticing interesting times and numbers. The process of soul consciousness or awakening allows the “human being” to break free from the human reflex conditioning. You are an evolving soul living a human experience. You will become fully human and come to know, love and forgive yourself and your life. You will have risen above all human ways and lessons, reached all human goals and fulfilled all human tasks and missions related to all the colors of the aura system of Life. You will no longer identify with or be defined by being human. You will have reached the final yellow aura color, which is the highest achievement. It means good behavior in life, good attitude towards life, a good, healthy, balanced open mind, generous heart and righteous will. After living this way or living the Life, you will be rewarded your white, integrated aura system after which you will receive your TRUE abovementioned **REWARD**.

As an evolving soul you will have mastered the “human being” degree between the “**good**” and “**bad**” by choosing to live in human enlightenment and soul consciousness or simply to be good. The choice of living in human enlightenment and soul consciousness is a deliberate, conscious, informed and/or educated choice. To be good or to live and govern enlightened is the ticket to personal and global (self-) realization and (self-) liberation!

The soul (human) has an aura system with a color.

The colors indicate the ways, lessons, tasks and missions in the human condition (human being degree). The color also indicates which soul chamber in the house of souls (5th dimension) the soul will go to after the physical death has occurred and after **crossing over**.

***Purple**; bad behavior, bad attitude (personality), bad mind, good heart, bad will (choices) (6th place)

***Indigo**; bad behavior, bad attitude (personality), good mind, bad heart, bad will (choices) (5th place)

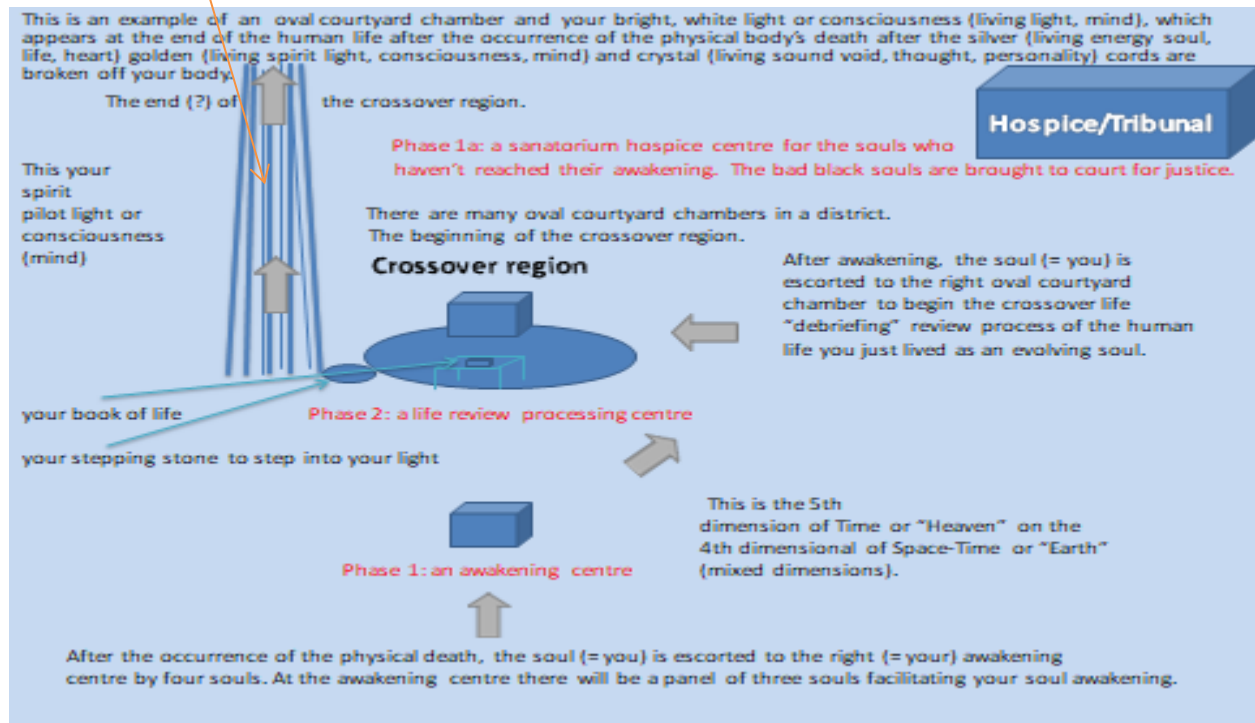

***Blue**; bad behavior, bad attitude (personality), good mind, good heart, bad will (choices) (4th place)

***Red**; good behavior, good attitude (personality), bad mind, good heart, good will (choices) (3rd place)

***Orange**; good behavior, good attitude (personality), good mind, bad heart, good will (choices) (2nd place)

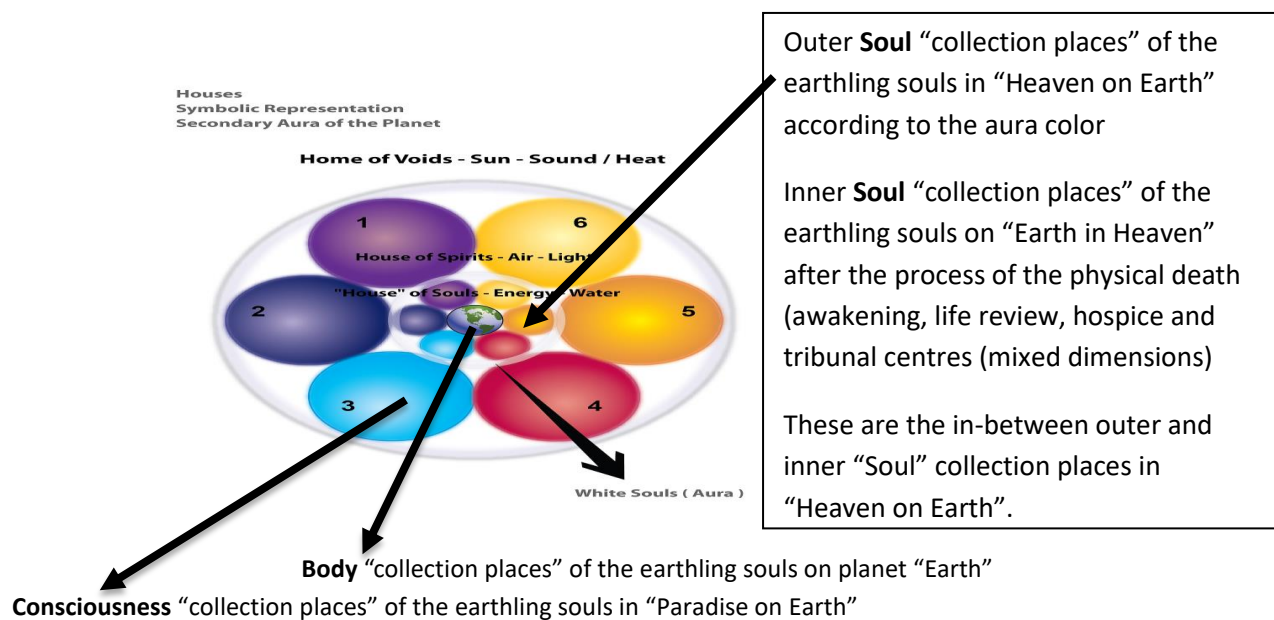

***Yellow**; good behavior, good attitude (personality), good mind, good heart, good will (choices) (1st place)

This “consciousness” or “light” or “mind” in your aura system normally only appears after the death of the human body when it breaks off (golden cord) from the soul who you are to fulfill its last function operation to carry or fly you to the soul mansion or soul collection place according to the color of your aura system after you have successfully completed your life review interview (see below). The “consciousness” in your aura system is fractal and impersonal until you as an evolving soul reach a white aura system in the “human being” degree of the Cycle 1 bodily incarnations.

This picture shows the full process of your human death. The silver, golden and 2 x 3 crystal cords will have broken off your human body and the soul who you are, which signifies the true moment of the human death. You are the soul now in “Heaven on Earth”. You leave your body behind on “Earth”. The “living light” that shines behind the regional oval courtyard chamber of your life interview is your impersonal, fractal “consciousness” or “mind”. It was connected to the soul who you are during its human life through the golden cord. Your “consciousness” will be fractal until you integrate and mature as an evolving soul. For now, the total aura system of the soul who you are is completely separated and disintegrated in its individual parts.

The last function of your impersonal “consciousness” is to drop you off at the mansion in the in-between way station according to the color of your aura system after which your “consciousness” will retire and return to a special place in “Paradise on Earth” to await your decision to continue your journey as an evolving soul to finish the “human being” degree with a white, integrated aura system.

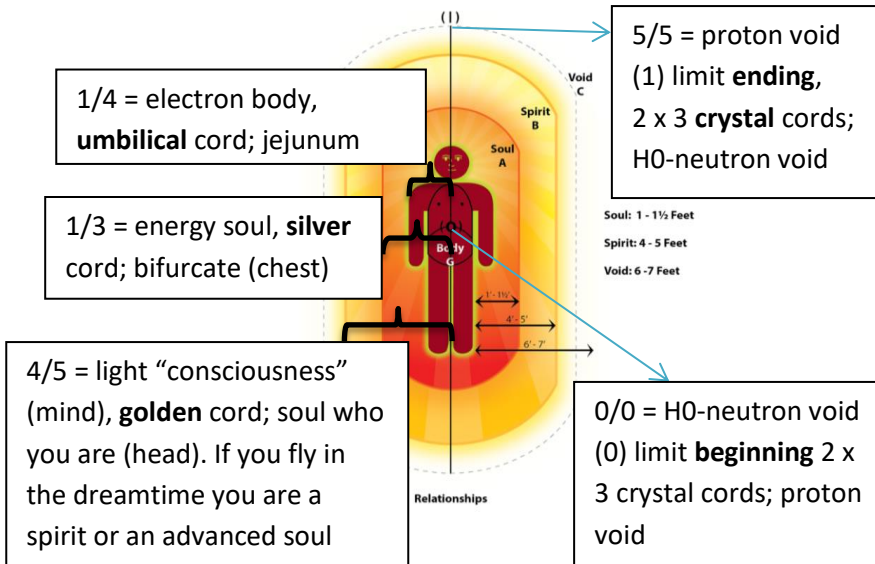

THIS IS WHAT WE ARE ALL LIVING FOR!

What this means is that the soul who you are, stops the process of Cycle 1 of bodily reincarnations on "Earth" and continues its journey as an integrated, mature evolving soul in "Heaven". You will start Cycle 2 of your evolution.

THIS IS TRUE LIBERATION!

As an evolving soul you have to learn your ways and lessons and fulfill your tasks and your missions in the "human being" degree. As an earthling you have to create your own mission(s) in life through your personal gift(s), talent(s), skillset(s), power(s), knowledge, education, force and intelligence. This has to do with your own chosen contribution to Humanity, which could be shared with one, many or all your neighbors amplified with applied goodness and kindness or enlightenment, which means to be good to yourself, others (family, friends and neighbors), nature (minerals, plants, trees and animals), Humanity (all neighbors) and planet Earth (earth, water and air) or our food, drink and breath.

When you are flying in the dreamtime you are not an earthling. In this case you will have been given a special mission to fulfill on Earth. You are a programmed module that is placed strategically in the World to shape consciousness. You could also be a "walk-in" or "drop in" soul or spirit to facilitate. The task at hand is to find this mission in your life to help humankind, nature or planet Earth. This is not a given. Sometimes it happens that the soul or spirit in question doesn't live up to its full potential or doesn't wake up to its soul or spirit conscious reality and therefore doesn't realize its programmed mission. You could also be placed on Earth as a soul because you are punished. Planet Earth is a colony for punished souls.

This picture shows the primary aura of human life.

Beginning (0) limit: H0-neutron 1-void

Ending (1) limit: proton 0-void

} **THIS IS YOUR "CREATIVE PRINCIPLE"**

Middle A: 1 solid living electron **body** 1/4th (your vehicle on "Earth")

2 liquid living energy **soul** 1/3rd (who you are in "Heaven")

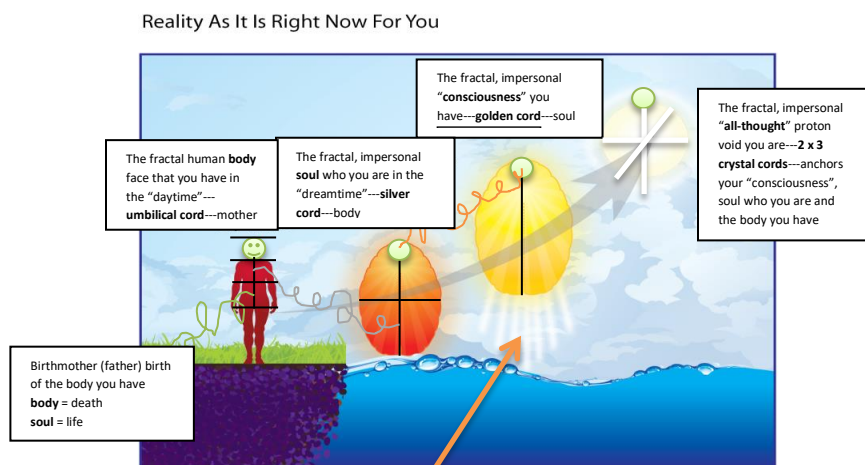

3 gaseous impersonal living spirit **light**, "mind" or "consciousness" 4/5th (who you will be in "Paradise")

Middle B: 1 solid living electron **body** 1/4th (your vehicle on "Earth")

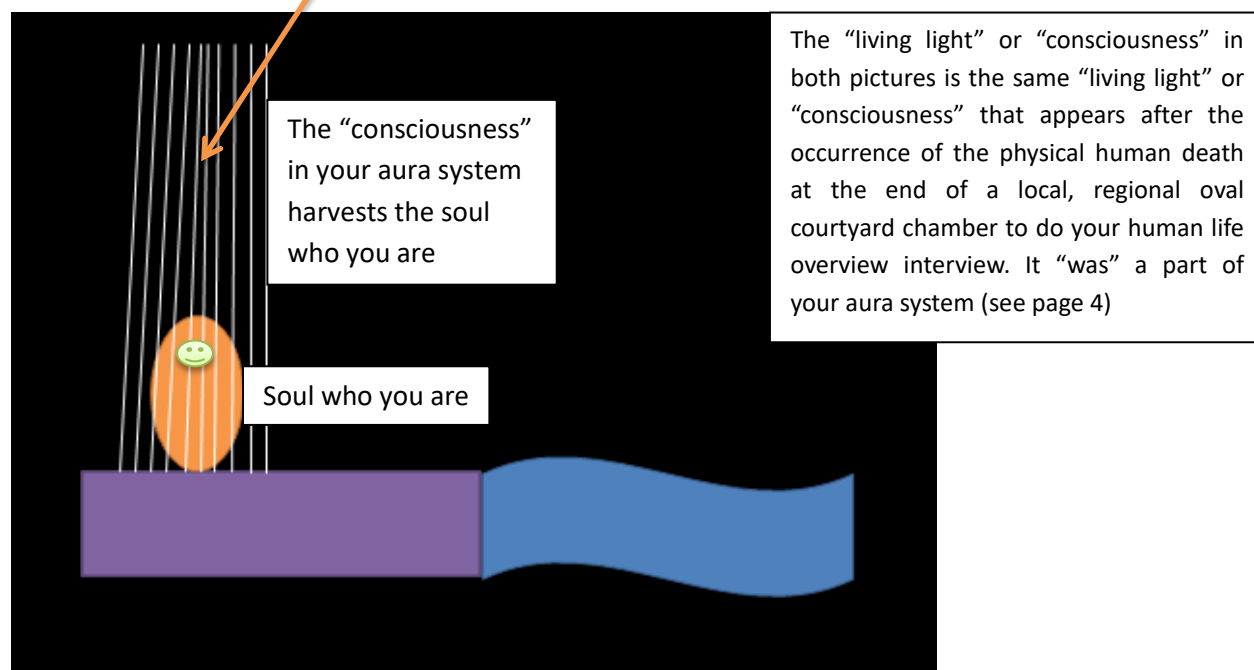

2 gaseous personalized living light **spirit**, "mind" or "consciousness" 4/5th (who you are in "Paradise")

Middle A belongs to an "earthling" body of mineral and bacteria, plant and tree, animal and human occupied by an evolving soul of planet Earth's system of Life.

Middle B belongs to a higher soul or flying spirit, who has been chosen to help awaken, expand or shape the planetary consciousness towards the soul reality consciousness, which is the next stage of planet Earth's evolution. Planet Earth will become a full-fledged soul planet.

The effect of human enlightenment and soul consciousness will bring forth the next stage of our natural evolution, which is the soul conscious reality. The body-soul transformation is the final stage of the process. Your body and the soul who you are unite.

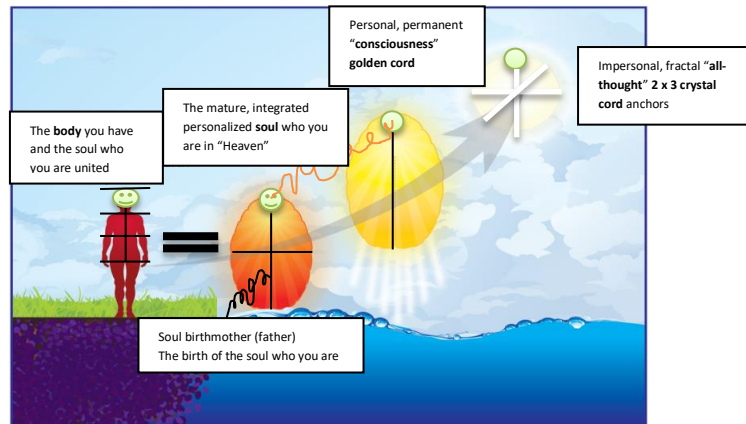

This picture shows the impersonal living light or "consciousness" in your own aura system **harvesting the soul who you are with the body you have**. This can happen at any time during your life after having made the choice to live in human enlightenment and soul consciousness. You are living your best-life-scenario. It can happen after having lived this way or your best-life-scenario for a certain time with a white, pure aura system. It could also happen after the human death with a bit of help and a finished outcome at your life overview interview.

You now have a permanently personalized "consciousness" or "mind" through the soul who you are. It is no longer fractal. Your "consciousness" is united with the soul who you are. This is the mature, integrated soul starting Cycle 2 in the soul realm. You will have fulfilled your human being degree. You will have received your eternal identity,

personality, face and name, which is the conglomeration of all the identities you will have lived as a mineral, bacteria, plant or tree, animal or human body. **This is the reward of an enlightened life. You will be freed from the cycle of reincarnations.** You will be realized and liberated and able to continue your life as an integrated, mature soul in “Heaven”. The body that you had and the soul who you are have become one and the same. You can be body and you can be soul. This is transformation. This is the immortal body.

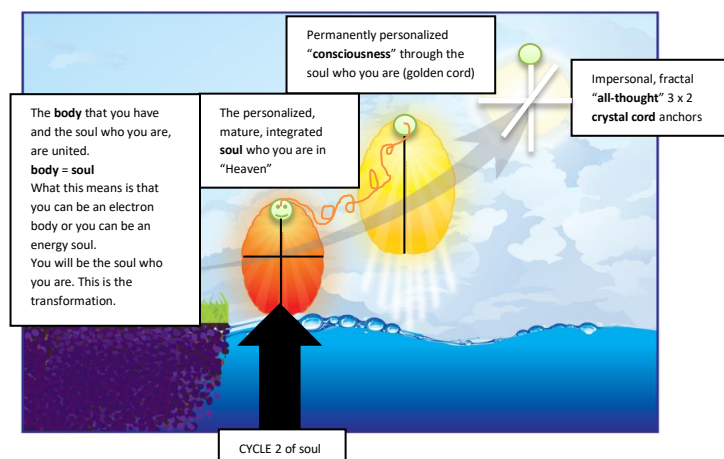

Reality As It Is Right Now For You

You can see in this picture that the mature soul who you are has a face, a name, a personality identity and a permanently personalized “consciousness” or “mind” now. **THIS IS THE FUNCTION OF HUMAN LIFE!** This is transformation.

The evolving soul who you are in the earthling “soul being” degree of Cycle 2

Reality As It Is Right Now For You

After the human being degree ceremony and celebration are over, you will be greeted by a panel of souls who will ask you the most important question ever whether you wish to continue your journey as an evolving soul or if you wish to continue your life as a soul without having any demands or obligations. All souls must go through primary,

secondary and high school through the bodily incarnations of minerals and bacteria, plants and trees, animals and human or Cycle 1. The human being degree is the most difficult degree between the “good” and “bad”. A good soul with a white, pure aura system is allowed to continue. A bad soul with a black, impure aura system is not allowed to continue and could be punished or live the death of the soul (Second Death).

When the soul chooses to continue its journey of learning and evolving, it will go to “University”. The soul will go through the left door behind the panel of souls. It will go through the degree of “soul” and “spirit” or respectively the degree of Eternity or Time (Cycle 2) and the degree of Infinity or Space (Cycle 3) to reach immortality or eternal Life. In Cycle 2 the soul will learn to manipulate or travel in Time and self-time. In Cycle 3 the spirit will learn to manipulate or travel in Space and self-space.

When the soul chooses to discontinue its journey as an evolving soul, it will go through the right door behind the panel of souls. About 4% of all souls end up continuing their journey as an evolving soul. 96% of all souls choose more or less to discontinue their journey. The psychological, philosophical and existential questioning of “Do I want to live forever” is an important process to fulfill to be able to make a deliberate, conscious and educated or informed choice. When the mature soul decides to discontinue its journey as an evolving soul it doesn’t mean it stops learning, growing and evolving. It will continue its life as a mature soul in true “Heaven”. It might choose to find a soul life partner and start his or her own soul family. It could go to school and study something specific to contribute to the soul’s society at large. You can do whatever you like to do. You will be absolutely free to choose. You will be a free agent in the soul universe. When the mature soul chooses to live its life it simply means that he or she is not signing up to go to “University” to fulfill the degrees of Time and Space or Eternity and Infinity to reach immortality. At a ripe old age, if there are no diseases or accidents, the soul will de cease or cease to exist. **The soul is NOT IMMORTAL as such.** As you have noticed, there is mention of “he” and “she” when souls are discussed. There are **male and female souls** the very same way as there are male and female bodies. **As above so below! You could thus have a male soul occupying a male (Xy) or female (XX) body or you could thus have a female soul occupying a male (Xy) or female body (XX).**

When the soul chooses the road towards eternal Life or immortality, it will go on a very long, arduous, strenuous and rewarding road of learning and growing to work towards this lofty goal. There is no guarantee that the soul in question will actually reach the very end of its journey towards immortality.

The process of human enlightenment and soul consciousness has integrated, completed and matured the soul. It has obtained its eternal personality identity, face and name and has permanently personalized its “consciousness”. **This is the function of Cycle 1.**
