

A NEW ENLIGHTENED WORLD ORDER

Are you a good person? (Personal assessment)

The end of unenlightened, unconscious, unknowing, ignorant living!

1 Do you know, love yourself?

2 Do you know, love your life?

3 Do you have a healthy, authentic relationship with yourself and others?

4 Do you have a good personality (personally stable, healthy and steadfast)?

5 Are you well-behaved in your human life?

6 Do you have a good attitude towards your life?

7 Do you have a good mind (mentally stable, healthy and open)?

8 Do you have a good heart (emotionally stable, healthy and generous)?

9 Do you have goodwill directed towards yourself (physically stable, healthy and righteous), others (family, friends, neighbors), nature (minerals, plants and trees and animals), Humanity (all others) and planet Earth, which consists of earth (food), water (drink) and air (breath), which are **Humanity's** and **nature's Lifelines**?

This means that you are in a physically fit, healthy and stable form (shape) with healthy, good living, eating, working, sleeping and sexual habits; genetics, personal circumstances and situations allowing. This means that you make healthy and good choices for yourself, others, nature, Humanity and planet Earth!

10 A good person makes a mistake, is wrong or makes a bad choice sometimes. It simply means being human. A good person owns up, apologizes, shows remorse, self-forgives, takes corrective actions and makes personal changes. A good person learns from his or her mistakes, he or she can admit being wrong and correct the mistake or the wrongdoing and **DOES NOT REPEAT IT!** A good person is love and forgiveness.

11 A good person will have a “do good” list or a list of “applied goodness” or does good deeds interspersed with random acts of kindness and goodness. Share your kindness and goodness with others.

Goodness is the state or quality of being good, honest, upright, morally excellent, virtuous, lovingly kind, compassionate, altruistic, generous or excellent in quality (workmanship). Goodness is the best part of anything; essence; strength.

Earth as a whole is not enlightened (good). There are many enlightened (good) people out there doing many wonderful great enlightened (good) things for planet Earth. It is simply not enough.

Enlightenment or “applied kindness and goodness” needs to go viral and global!

Enlightenment becomes a way of life in everything you are, everything you have and everything you do. Choose to **be good**, to **do well** (thrive) and to **do good** (share)!

To live to be and do good to yourself and others (enlightened) is a deliberate, conscious and educated choice. The choice to be good to yourself and others, in combination with healthy self-examination, can lead overtime to a healthy, authentic self-realization of becoming fully human, which can lead overtime to a healthy, authentic self-love, which can lead overtime to a healthy, authentic inner self-peace. This is the road to true happiness. You are responsible for and accountable to yourself. This is your own personal journey!

The true goal of human enlightenment (Homo illustratus or Homo deus) is in essence the realization of the mature soul who you truly are. The intermediary step between the enlightened Homo sapiens (Homo illustrates) and the conception of the mature soul is Homo amantes or the altruistic, selfless, compassionate, loving human being. This is the intermediary step that is necessary for the human being to become aware of the mature soul or you as you truly are. You are not the body. You are the soul. This is in essence the reward of the enlightenment process of the human being. This is true liberation. Enlightenment simply means to become an altruistic,

selfless, compassionate, good human being. Enlightened living is expressed through being the best person-ality you can possibly be, taking good care of yourself, others and the world at large (nature), living your best life scenario, deprogramming your straightjacket of learned “conditioned” hearing, personal behavioural and attitudinal (personality), seeing, mental (mind), feeling, emotional (heart) and doing, physical (will) “ego” patterns and expressing your true unique wisdom, gift, talent, skill to humanity. Enlightenment is to have the best possible relationship with yourself, others and with the world at large (nature). Enlightenment is to be and do good, to be beautiful, to be true, to hurt no one, to do no harm and to be at peace in love and joy with you, others and the World at large. Enlightenment is to be in service to yourself, others, nature, Humanity and planet Earth.

The only road to happiness is to be and do good. In combination with healthy self-examination, self-inquiry and self-discovery this can lead overtime to healthy self-realization, self-love and inner personal peace. Enlightenment is to be in servant-leadership to you, others and the world at large (nature). How you reach enlightenment or how you become enlightened is completely up to you (choice) as a human being person. The enlightened life is your own personal “best life scenario” or is in essence the preferred choice of you as an evolving soul. Enlightenment is a **conscious**,

deliberate, and **educated choice**. Proper education is pivotal, all-encompassing and is necessary to reach the ideal of enlightenment. In human enlightenment you aspire, inspire to the highest human ideal or philosophy of humanbeingness, you are fully human and you are fully responsible, mature, and accountable to yourself, others and the world at large (nature). You live your life in purity (purification process), love (compassion, forgiveness), and peace (ideal). You live in personal and interpersonal empowerment. You are creating or choosing your own journey of universal reality consciousness at all times, which is your life. You are creating or choosing your life at all times. The essence is to be good and do good so you can save yourself as an evolving soul. The essence is to be good and do good to others and planet Earth so you can help save Humanity from itself.

To know yourself and to know your life are the most important parts of being human. You can come to know yourself and to know your life through healthy self-examination, self-evaluation of the human reflex conditioning. To know yourself is to know how you tick or work. To know your life is to know how your life ticks or works. This inner work allows you to discover you as you truly are as a real human being “I” without the human conditioned false “ego-self”. This is the real, authentic self “I” as a human being. The negative human reflex conditioning forms the defensive/offensive false

“ego-self”. In an enlightened real self “I” ideal you are fully, truly human or understand fully, truly what it is to be human. You live and are enlightened. The real self “I” is based on enlightened **being** and not on the human reflex conditioned false “ego-self”. You will have a natural authority about you with a confidence based on real, true, authentic being. To know the true self or true-beingness is the ultimate of knowing the self. To know the true self or true-beingness allows you to discover what you are made of and what you are made in. It allows you to discover who, why, what, how, where you are here and now, where you come from, and where you are going to. This is your own inner journey of self-acceptance, self-awareness (start taking ownership, being responsible, being accountable), self-recognition (studying, developing awareness, examining, evaluating, knowing, learning, understanding) and self-development (application of self, adapting, enhancing, advancing, changing etc.).

To “love” your neighbor in essence means; to be good, altruistic, selfless and to have compassion for all your neighbors, not one exception. To “love” or to have compassion for the whole world **in action** like you “love” or have compassion for yourself **in action**. These are not just empty words. The addition “in action” is very important. “In action” here means; “to do it” or “to apply it.” All spiritual and religious systems seem to have the basic tenet of “to love thy neighbor.” Whether they

apply this basic tenet is a whole different matter altogether. “To love thy neighbor” means to love all of them; to be good to all of them.

Do you run a good “social responsibility included” corporation or company? (Business assessment)

Do we have responsible and accountable corporations or companies, including media and social media outlets!

1 The “will of the people” of an entire corporation or company decides together. There is no “boss.” The corporation or the company is the boss. The “will of the people” of an entire corporation or company is the boss. The managers, organizers or leaders of the corporation or company adopt a servant managerial, organizational or leadership approach. The corporation or company adopts a 70% democratic vote ruling approach and not the rule of a select few top executive individuals. This will rule out any form of dark (self-interest) leadership, which is becoming more prevalent. The 70% deliberate, conscious and educated democratic choice vote is based on expert knowledge and advice.

2 The corporation or company (individual) keeps 35% of the profit wealth **after covering the general functional and operational business expenses and after putting aside a security cushion for unexpected downfalls and events.** The corporation or company (individual) will try

to regulate profits and losses within the corporation or company.

3 The corporation or company (individual) shares 30% of the profit wealth with all the people within the corporation or company. All the people within the corporation or company are or make up the corporation or the company. It's the people that make the corporation or company work or tick. In an enlightened company all the workers are remunerated extremely well according to a salary and benefit capped system.

4 The corporation or company (individual) shares 35% of the profit wealth with the "benefactor" or the consumer, patient, client, member, public, society at large or environment at large. The "benefactor" is what generates the profits or the exchange (gift) of monies for the goods and services rendered. Sharing profit wealth is an enlightened ideal.

5 The corporation or company (individual) acts responsibly and accountable within inside and without outside. The corporation or company (individual) follows or functions and operates with enlightened, good, sound business principles and practices based on moral and ethical "socially responsible" standards or guidelines.

6 The corporation or company (individual) works for the "good" of the corporation or company (individual) and for the "good" of others or the consumer, patient, client, member, public, society at large and the environment at

large. The corporation or company works for the “good” of nature or minerals, plants, trees and animals, Humanity at large and planet Earth at large, which includes the element “earth” lifeline, the mineral “water” lifeline and the element “air” lifeline, which supply our breath, drink and food. Planet Earth is our Home, Backyard, Hub of Life and Lifeline. Planet Earth is a gift to Humanity and nature.

7 An enlightened or good corporation or company (individual) maintains a perfect balance between the economic effect and the economic system or the “economic goods and services” provider. The consumer society and the environment at large generate or cause the economic effect. The corporation or company aims to balance the books.

8 An enlightened or good corporation or company (individual) is fully environmentally conscious and thoughtful; fully responsible and accountable. A corporation or company (individual) follows commonsensical and logical rules and regulations regarding renewable, reusable and sustainable principles and practices. A corporation or company follows commonsensical and logical rules and regulations regarding the society and the environment at large. The rule applies when you take from the Earth you give back to the Earth; when you receive from the people you give back to the people. The corporation or company (individual) adopts a commonsensical and logical

approach to garbage, waste, pollution and raw sewage control inside and outside the corporation or company.

9 A good corporation or company does not engage in socially harmful and discriminatory principles and practices. A corporation accepts and respects (fair and equitable) the human rights inside and outside the corporation or company. The corporation or company accepts and respects human and racial equality, female, male, gender and trans-gender equality and female and male pay equity for the same job done. A socially responsible corporation or company pays their team members very well according to a scaled salary and benefits capped system. A good corporation follows the Law (constitution).

10 A good corporation doesn't allow corruption to occur. A proper whistle-blower committee needs to be put in place. The whistle-blower is paid handsomely for giving the right information. Shared power and control can prevent corrupt behaviours and attitudes.

11 A good corporation or company that follows sound "good" business principles and practices will have less governmental, provincial (state) or municipal "red tape" interference.

The present day system of shareholders who buy shares to collect business capital needs to be revisited, rethought and revised. It should be a shared ownership between all the people who work for the company and

all the people who invest in the company. Special provisions need to be made that the shareholders board doesn't rule or run the company. The company shouldn't focus on making profits for the shareholders. A proper return for investments should be designed according to enlightened ideals. There are several other socially responsible ways for collecting business capital. There is conscious capitalism, which speaks for itself. The WCPC promotes and facilitates the "not for profit driven" or "shared" capitalism.

**Do you have a good "social responsibility included" government i.e. leader?
(Government assessment)**

Do we have responsible and accountable governments? Do we have properly educated, properly trained, non-egoic, responsible and accountable leaders? This World has to end unenlightened and incompetent governing as well as dark leadership. The United Nations Allegiance Alliance (UNAA) is a concept, which is discussed in the next chapter but is mentioned in this chapter.

Does your government work on behalf of you (citizen of a people nation), others (all citizens of a people nation), nature (minerals, plants, trees and animals of a people nation), Humanity (other people nations) and planet Earth (earth, water and air elements of a people nation or your food, drink and breath lifelines)? Do you feel free, safe and secure in your nation as an individual or group? Do you feel protected by your national

government? Do you thrive? Do you have a dark (bad) egoic (nation-interest) government? Do you have a dark (bad) egoic (self-interest) leader or are any of the members?

The UNAA (World Government Council) in essence protects all world citizens (peoples) of all people nations. When the rights of world citizens anywhere in the world are disregarded or disobeyed, the World Council of the United Nations Allegiance Alliance will act swiftly to restore these rights immediately. This can only happen when all 196 nations (top leaders, top judges, top bankers, top doctors and top lawyers etc.) come together to talk, work and walk together to resolve national, international, continental, intercontinental and global (World) issues, which lie beyond the bounds or limits of a (any, all) nation(s).

A new active democratic “open source” dialogue governance system between the public and the independent, unbiased intellectuals of a nation on one side and the government officials of a nation on the other side is needed on planet Earth. The government officials and the intellectuals of a nation educate the “Will of the People”. The democratic systems on planet Earth don’t work well. A democracy works only when everyone is involved and engaged through properly informed consent referendums or other forums. A democracy works only when everyone makes a **deliberate, conscious and educated** choice decision

based on unbiased expert advice. This is how a true democratic governance system works. The democracy is carried by all of its citizens. Without the citizens or the peoples of a nation there is no democracy. A national democracy is only as good as its individual members or national citizens in it. All citizens need to be properly informed and educated to facilitate their democracy.

THE **WILL OF THE PEOPLE** LED BY THE INTELLECTUALS OF A PEOPLE NATION IS THE **GOVERNMENT**. THE CHOSEN GOVERNMENT IS AN EXTENSION OF THE WILL OF THE PEOPLE OF AN ENTIRE NATION. The governmental leaders are non-egoic, enlightened “good” and educated servant leaders. NO MORE DARK, DICTATORIAL, DESPOTIC, AUTOCRATIC, AUTHORITARIAN, TOTALITARIAN LEADERSHIP ALLOWED. NO MORE GOVERNMENTAL AUTONOMY. NO MORE GOVERNMENTAL SECRECY. Everything and everyone has to be one hundred percent transparent.

Mission statement: the informed and/or educated “Will of the People” led by the unbiased intellectuals of a nation is the only legitimate foundation of any government official. The “**Will of the People**” is the **Government**. To protect the power of the “Will of the People” should be any governmental official’s first and foremost priority objective.

1 The “Will or Voice of the People” led by the intellectuals of an entire nation is the government.

2 The “Will of the People” properly and appropriately led by the independent, unbiased intellectuals of an entire nation chooses a government extension. A government extension is a think-tank **brainstorming** and **advocacy** centre where the chosen national “government extension” representatives find logical, commonsensical solutions for the ideal of that nation. Each constituency is represented by a chosen independent government representative. The government extension is made up of enlightened, educated and non-egoic people who know how to run a nation’s business. Special educational standards and provisions should be made for the “government extension” entry levels. The educational entry level degrees must relate to the ministerial portfolios. A special two year educational entry level “Governor College” program needs to be designed and implemented for government officials on how to run a nation properly. General knowledge testing, moral and ethical testing and psychological testing is required to prevent narcissistic, megalomaniacal, psychopathological or socio-pathological people etc. to become governmental officials or leaders. Managerial, organizational, visionary and servant leadership skills are sought after assets.

The total government is made up of the chosen independent constituency representatives, the chosen department portfolio cabinet ministers and all the appointed department heads of the public sector led by

a government panel. The chosen government extension chooses a governmental department portfolio cabinet. The chosen governmental department portfolio cabinet chooses a leader. The appointed department heads of the public sector choose a leader. The chosen UNAA official, the leader of the cabinet, the leader of the public sector, the chosen Central World Bank representative, the chosen Central World Court representative, the chosen Central Nation Bank representative, the chosen Central Foreign Nation Bank representative and the chosen Central World Health representative lead the chosen government extension (see later). Each sector of the government controls, regulates, oversees, administers, checks and balances the chosen government extension. The intellectuals through the “Will or Voice of the People” control, check and balance the chosen government extension through an active “open source” democracy system. The intellectuals can call for a revision, change or cancelation of a government order or decree through the informed and/or educated “Will or Voice of the People” of an entire nation.

3 The chosen government extension orders or decrees through an active “open source” democracy what to do. If the intellectuals of a nation do not accept and respect the order or decree of the chosen government extension, they can negotiate or they can call for a referendum. Through the help and guidance of the unbiased intellectuals of a nation, the “Will or Voice of

the People” of an entire nation can cancel or challenge the order or decree of the chosen government extension through an active open source “dialogue” democracy. The 70% democratic referendum vote ruling is based on a **conscious, deliberate, educated** and/or **informed** choice. In an active “open source” democracy there is an ongoing dialogue between the chosen government extension and the “Will or Voice of the People” and the unbiased intellectuals of a nation. The problem with democratic voting systems is that most people choose or vote with their **feeling, sensing heart** (emotional) and not with their **seeing, knowing mind** (mental) and are therefore not able to make a **conscious, deliberate** and **educated** and/or **informed** choice. This is very important!

The “Will of the People” of an entire nation lies above the “Will of the Government”. It is a function, operation of the “Will of the People” of an entire nation. Shared governance is reached through a healthy active open source democratic dialogue between the “Will of the People” led by the unbiased intellectuals of an entire nation and the chosen “Will of the Government” extension. The “Will of the Government” cannot become separated and autonomous from “The Will of the People” of an entire nation. In this World we have mostly autonomous governments, which are separated from the “Will of the People”. There are some exceptions as always.

The chosen government extension constituency representatives, the chosen department portfolio cabinet and the public sector department heads propose a law (motion) or law amendment through brainstorming together with education or information (unbiased expert advice). The chosen government extension constituency representatives or the chosen department portfolio cabinet or the department public sector heads propose a law (motion) or law amendment through brainstorming with education or information (unbiased expert advice) as a group sector.

In an active “open source” democracy the chosen “nation” cabinet for example starts the democratic process with a minimum 70% consensus ruling vote after three tries, after which the public sector departmental heads continue the process with a minimum 70% consensus ruling vote after three tries, after which the House or Party of “nation’s” chosen government extension continues the process with a minimum 70% consensus ruling vote after three tries. If the motion is accepted at all three levels of the government extension the law (motion) or law amendment is proposed to the “Will or Voice of the People” led by the intellectuals of a “nation”. The chosen government extension brainstorms, helps, educates, informs, guides and facilitates the people’s nation or the general public and the intellectuals. The general public and the intellectuals of an entire nation can change, challenge or correct the

order or decree from the chosen government extension through the active “open source” dialogue democracy system by means of a referendum, if necessary.

The goal of the chosen government extension is to create the best possible “nation” for all its citizens for example to live in. This is real democratic governance! At the end of the consensual democratic process it is the “Will of the People” of an entire nation and its intellectuals ordering or decreeing the chosen government extension what to do and not the other way around where the will of a select few chosen individuals get to decide for all the others (entire nation). The law and order of a nation should not be determined by the will of a select few chosen autonomous individuals. The Government doesn’t separate itself or becomes autonomous from the “Will of the People”.

It is also possible for the “Will or Voice of the People” and/or the intellectuals to propose a law (motion) or law amendment to the chosen government extension. The motion has to pass all three levels of the government extension. The goal of the chosen government extension is to build the best possible “nation” for all its people citizens to live in. This is real democratic governance! Political heckling and negative add campaigning have no place in real democratic governance.

A proper in person voting system through a trustworthy, safe and secure paper voucher with proper identification

and signature verification or a secure, completely closed electronic voting system with a verifiable personalized identification and security code needs to be developed. No cheating, rigging, gerrymandering or computer hacking interference is allowed. No mail-in votes should be used unless it can be made completely secure and verifiable. Electronic tabulators should be disallowed and replaced by hand counting in the presence of properly trained poll watchers. If electronic tabulators are allowed, they should all have the same unchangeable proper software that follows the federal state law specifications. They should not be connected to the Internet. The software should not be able to be changed or manipulated by the government or the local precincts to suit their own goals and needs. It should be rigorously tested, be completely secure and unchangeable. With the use of properly designed secure ballots, third party adjudication interference should only happen occasionally with appropriate oversight so that cheating is completely prevented. The machines should be programmed to prevent double voting, death people voting, under-aged people voting, out of province (country) people voting, non-existing, vacant or commercial address voting, non-citizens voting and changing, adding or subtracting votes. A proper voting arrangement needs to be made for legitimate people who live out of the province or country. The tabulators should also be programmed to recognize the standard paper used for the ballots and any tampering done to it.

4 There are **no political parties in a real democratic governance system**. A political party system creates division, disunion and polarization within and without the country. Whether you have two, three, twenty eight or over a hundred parties, the results are the same. The parties reflect a splinter-grouping in the nation. They do not represent the nation. There should be only the party of “nation.” There is the ideal of “nation.” There is the “House” of “nation” for example. The chosen government extension functions and operates as a **brainstorming** think-tank centre to find solutions and resolutions for “nation” example. The chosen constituency representatives act independently in a 70% democratic consensus ruling. The chosen independent representatives bring “**brainpower**” to the table of negotiation and not egoic, biased, bigoted, opinionated, narrated, editorialised, commentarial, religious, politically oriented, partisan, denominational or judgemental behaviours and attitudes etc. The United Nations Allegiance Alliance representative, the portfolio cabinet leader, the public portfolio department leader, the leader of the house of representatives, the United Nations World Bank representative, the United Nations World Court representative, the Central Nation Bank leader, the Central foreign Nation Bank leader, the United Nations World Health representative etc. regulate, control, oversee, administer, check and balance the proper democratic process of a democratic nation (see later).

In each constituency the intellectuals bring forth four or five **qualified** and **tested** individuals to take on the task of government official. Standard educational, moral, ethical and psychological profiling tests for government representatives are needed to prevent egoic, dark leadership. Each appointed person has to sell him or herself on his or her merit to the constituency. Once voted in his or her record will allow them to stay. If the constituency finds the person inadequate in performing the official governmental duties, he or she will be impeached and removed from office immediately. The testing of governmental officials is necessary to prevent dark, egoic leadership and to check for organizational, managerial, visionary and servant-leadership qualities.

The government works with a non-political party system. There is only the party of “nation”. What this means is that each official independent individual member of the government works on making the house of “nation” the best place for all its people citizens to live in. The government works with a think tank common sense approach and 100% collaboration at all levels to achieve a solution to a problem. The government works with a 70% democratic vote, which is a pass for a motion. There are no groups (factions), coalitions (alliances) possible that can make unconstitutional backwards backroom deals to pursue a government policy of any kind. Each person works and contributes as an independent think-

tank member in the party of a “nation”. In this system there is no minority or majority base.

Do we have a good “social responsible included” United Nations? (UN assessment)

The end of an unenlightened, disintegrated, disunited and dysfunctional United Nations. The end of the undemocratic veto right. The UN should in essence be a G196 World Government. An enlightened World needs a Government to oversee World issues or matters. This is not to be confused by a domineering New World Order control of a select group of unelected superrich, influential individuals. AN ENLIGHTENED ONE HUMANITY NEEDS AN ENLIGHTENED WORLD GOVERNMENT! THIS IS NOT BASED ON POWER, HIERARCHY OR CONTROL.

Does the United Nations work on behalf of you (citizen of a people nation), others (all citizens of a people nation), nature (mineral, plants, trees and animals of all people nations), Humanity (all citizens of all people nations) and planet Earth (the earth, water and air elements of all people nations or our daily bread, drink and breath lifelines)?

1 The United Nations Allegiance Alliance (UNAA) works on behalf of the World of all people nations and works with a 70% democratic consensus ruling. The goal of the UNAA is to create the best possible “planet Earth” World for all of us (Humanity and nature) to live in. The

sovereign UNAA can bring forth a new law or law amendment in collaboration with the 196 cabinet leaders of all people nations, which is recognized, respected and accepted by all people nations of this World.

2 The chosen government extensions of all nations chooses a UNAA World government extension. The UNAA or G196 World government extension is made up of enlightened, educated, non-egoic people who know and understand how to run a World government. No dark leadership allowed! The UNAA representative, the cabinet leader, the public sector leader and the leader of the House of Representatives make up the main administrative government panel or committee that safeguard the democratic governing process of a nation. The chosen national government extensions can also decree or order the chosen United Nations Allegiance Alliance World government (UNAA) through an active “open source” dialogue democracy what to do. The chosen government extensions of all the people nations, control, regulate, oversee, administer, check and balance the UNAA through an active “open source” democracy system. It is also possible for the “Will or Voice of the People” and the intellectuals of all people nations to decree or order the chosen United Nations Allegiance Alliance (UNAA) through an active open source “dialogue” democracy what to do.

This is real democratic governance! Concentrated, autonomous control, power and money are undemocratic. The veto power is undemocratic and should be voluntarily given up by Russia, US, China, France and the UK. All 196 countries are equally represented in the UNAA. The UNAA represents all 196 countries equally. There is no veto power. The UNAA works on behalf of the World of all people nations. The UNAA works with a 70% democratic consensus ruling. The goal of the UNAA is to create the best possible World for all of us to live in.

3 After reaching democratic consensus (70%) between the 196 UNAA representatives, the proposed UNAA new law (decree, order) is sent to all the people nation government extensions through their respective UNAA representatives. The chosen national government extensions can appeal, challenge or change the new UNAA law or law amendment.

After reaching democratic consensus (70%) between the 196 people nation governments, the proposed **UNAA** law or law amendment is brought back to the UNAA. After reviewing, the new UNAA law or law amendment is unequivocally accepted, respected and implemented (honored) by all people nation's constitutions.

After reaching democratic consensus (70%) between the 196 people nation government extensions, the proposed **government extensions** new law (decree, order) is sent

to the UNAA. The chosen UNAA representatives can appeal, challenge or change the new government extensions law or law amendment. After reaching democratic consensus (70%) between the 196 UNAA representatives, the proposed UNAA law or law amendment is brought back to all the national government extensions through the UNAA representative. After reviewing, the new UNAA law or law amendment is unequivocally accepted, respected and implemented (honored) by all people nation's constitutions. This is real democratic governance! All 196 countries are equally represented in the UNAA. The UNAA represents all 196 countries equally. There is no veto power.

4 The UNAA, per continent, protects all people (citizens) nations by means of a centralized, combined continental humanitarian military policing force (army). All people nations, per continent, contribute personnel and equipment to establish a centralized continental humanitarian UNAA military policing force (army) to regulate, oversee, administer, control, protect, check and balance all the peoples of the people nations of that continent and the World. When the rights, freedoms and responsibilities of world citizens or people nations anywhere in this World are disregarded or disobeyed, the World UNAA government should act swiftly to restore these rights, freedoms and responsibilities immediately. When natural (inner workings of a planet),

environmental (climate, weather) or human (general pollution) disasters, catastrophes or cataclysms happen anywhere in this World, the UNAA World government should act swiftly to control, limit and clear the damages immediately. All nations need to come together through the UNAA and work together. When all nations work together, miracles will happen. This is not happening as it should because the present UNAA is mostly dysfunctional or is rendered dysfunctional because of non-acceptance, disrespect (undemocratic) and “shadow government” control. The UNAA should be a sovereign organization overruling, superseding all national organizations. All nations need to cancel or phase out their military system. The military and police system should become a combined, integrated humanitarian force. The more human beings choose enlightenment and soul consciousness the less military and police force is needed. In an enlightened society there is no police or military. You are the self-monitoring military police.

5 Each people nation in this World will have to agree upon, accept, respect and implement the people **nation's** consensus **charter of rights, freedoms, duties** and **responsibilities**. Each people nation in this World will have to behave within the limits or boundaries that are laid out in the people nation's charter of the UNAA.

After the First World War the three original initiators of the “League of Nations” were France, England and the United States. The signatories vowed to create an

international postwar peacekeeping organization. President Woodrow Wilson considered it his lifework even though the US pulled out.

After the Second World War President Franklin D. Roosevelt and British Prime Minister Winston Churchill issued a declaration, which was signed by representatives of 26 countries, called the “United Nations.” The signatories of the declaration vowed to create an international postwar peacekeeping organization.

The United Nations is an international organization founded in 1945 after the Second World War by 51 countries committed to maintaining international peace and security, developing **friendly relations among all nations** and promoting social progress, better living standards and human rights. Today there are 195 countries in this World of which 193 countries are part of the United Nations. The two countries that are not UN members are Vatican City and Palestine (recognized as a sovereign member). Each of the UN member States has one seat in the General Assembly.

The old “League of Nations” and the present “United Nations” do (did) achieve results by overcoming or preventing crisis; governing regions with new methods, stopping epidemics and pandemics; developing ways of cooperation between countries who until then had only known relationships based on power; performing

numerous humanitarian, environmental and peace-keeping undertakings; providing food to many million people in many countries; assisting millions of refugees; authorizing many international peacekeeping missions and many important international agreements.

The UN works to prevent conflict by helping parties in conflict to make peace and to create the conditions to allow peace to hold and flourish. The UN Security Council has the primary responsibility for international peace and security.

The main functions of the present UN are to keep peace throughout the world; to develop friendly relations among nations; to help nations work together to improve the lives of poor people, to conquer hunger, disease and illiteracy and to encourage respect for each other's rights and freedoms; to be a centre for harmonizing the actions of nations to achieve these goals.

(NOTE 1: source Wikipedia)

The underlying functions of the present UN are to execute Agenda 2030 or Agenda 21 or the 4th industrial revolution (transhumanism) through the invisible hand "shadow government" to achieve total World control with the arrival of a one World Government New World Order situated in Israel with its seat in Jerusalem. The super-elites and "absolute rulers" of this Earth will choose their NWO Government officials controlled by one World leader. It is high time for this World to wake

up to its “bosses” or to the “people” who run this “Earth” ship. These are the ruling class superelite 13 + 300 families and the “absolute rulers”. They can exist because they work in the shadow as an “invisible hand”. The World needs to confront the top families in charge and negotiate a much better deal for Humanity. They need to relinquish their power and control and give back 80-90% back to the people where it belongs. This World will be a much better place without their power and control.

The previous “League of Nations” and the present “United Nations” are often considered ineffective or “toothless” in many respects and aspects because of national sovereignty and the right of veto. To make it work the general or common interest has to be maintained and applied instead of the self or nation-interest. Most of us are obsessed with the effect a possible “solution” or “resolution” could have on ourselves or our country, which often results in not really trying to solve the actual problems. The main concern is to find answers that protect the interests of everyone around the table. The near impossibility to transcend self and national interests brought along the right of veto, which gave the possibility to any veto nation to block any decision.

The new League of Nations or the new United Nations Allegiance Alliance has to be given sovereignty or authoritative powers and control by all nations in this World to be given the possibility to enforce decisions

agreed upon democratically by at least 70% of all nation members. None of the nation members possess the right of veto. All members pledge allegiance to the alliance of all the united nations to help each other to achieve the democratically agreed upon goals and resolutions.

The Human Rights, Industrial Development, Agricultural and Nourishment, Economical and Social, Environment and Human Establishment Counsels etc. continue under the new UNAA umbrella system.

A CENTRAL WORLD GOVERNMENT EXAMPLE

A proper UNAA (United Nations World Government system), UNWB (United Nations World Bank system), UNWC (United Nations World Court system) and UNWH (United Nations World Health system)

United Nations Allegiance Alliance (World Government)	World Nations Cabinet Leaders

13-Central Health leader	
14-Foreign Nations Health leader	

The Central Nation Government Committee (CNGC) leaders preside over the nations' Government with representatives in the nation's Central Bank, the nation's Central Court and the nation's Central Health system.

A CENTRAL NATIONAL BANK EXAMPLE

There are no private banks. All banks in a nation are nationalized and normalized by the nation's Bank Act and held accountable to by the appointed Supervisors and Governors of the Bank Act. The Bank Act Supervisors and Governors are appointed by the chosen national Government and the

Central Nation Bank. The appointed Supervisors and Governors for the Banks are what chartered accountants are for the Businesses. All Foreign Banks carry the name of their nation of origin. The chosen national Government holds the Supervisors, Governors, Central Nation Bank and all Nation and Foreign Nation Banks accountable. The “Will of the People” and the intellectuals of a nation holds the chosen national government accountable. There are only the World Bank, Central National Bank, National Banks and international banks carrying the name of their respective countries of origin.

Central Nation Bank representatives

2-Central Nation Bank leader

3-Nation Banks leader

All leaders of all International Banks of a nation

4-Foreign Nation Banks leader

All leaders of financial institutions

5-Financial institutions leader

Central Nation Bank Committee

1-UNWB Nation representative

2-Central Nation Bank leader

3-Nation Banks leader

4-Foreign Nation Banks leader

5-Financial institutions leader

6-Nation Government representative

7-National Businesses leader

8-International Businesses leader

The Central Nation Bank Supervisors (3) and Governors (3) appointed by the nation's Government and the nation's Central Bank oversee the banking process and all financial affairs.

The Central Nation Bank committee (CNBC) presides over the Central Nation Bank, all Nation and Foreign Nation Banks and all finance affairs.

A CENTRAL NATIONAL SUPREME COURT EXAMPLE

All courts in a nation are nationalized and normalized by the nation's Court Act and held accountable to by the appointed "Supreme" or Central Nation Court Judges of the Court Act. The Court Act's "Supreme" or Central Nation Court Judges are appointed by the chosen national Government and the Central Nation Court. The panel of appointed "Supreme" or Central Nation Court Judges are what chartered accountants are for the Businesses or what Supervisors and Governors are for the Banks. All Foreign Courts carry the name of their nation of origin. The chosen nation Government holds the "Supreme" or Central Nation Court Judges, the Central Nation Court and all the Nation Courts and Foreign Nation Courts accountable. The "Will of the People" and the unbiased

intellectuals of a nation holds the chosen nation Government accountable.

Central Nation Court representatives

2-Central Nation Court leader

All leaders of all National Courts of a nation

3-Nation Court leader

All leaders of all International Courts of a nation

4-Nation Foreign Court leader

All leaders of all legal institutions of a nation

5-National legal leader

All leaders of all foreign legal institutions of a nation

6-International legal leader

Central Nation Court Committee

1-UNWC Nation representative

2-Central Nation Court leader (head-Justice)

3-Nation Courts leader

4-Foreign Nation Courts leader

5-National legal leader

6-International legal leader

7-Nation Government representative

Seven or nine “Supreme” or Central Nation Court Judges appointed by the nation’s Government and the Central Nation Court supervise the Court system and all legal matters of a nation.

The Central Nation Court Committee (CNCC) presides over the Central Nation Court, all national and international Courts and all legal affairs of a nation. The UNWC includes the International Court of Justice.

A CENTRAL NATIONAL HEALTH EXAMPLE

All healthcare facilities in a nation are nationalized and normalized by the nation’s Health Act and held accountable to by Central Nation’s Health officials of the Health Act. The Health Act’s Central Nation Health officials are appointed by the chosen national Government and the Central Nation Health. This panel of appointed Health officials are what chartered accountants are for the Businesses or what Supervisors and Governors are for the Banks. The chosen CNHC holds the appointed Health officials accountable. The “Will of the People” and the intellectuals of a nation holds the chosen nation Government accountable.

Central Nation Health representatives

2-Central Nation Health leader

All leaders of all National Medical Health of a nation (hospitals, hospices, short and long caretaking homes, nursing homes etc.)

3-National Medical Health leader

All leaders of all National Medical Health Care Clinics of a nation (private allopathic medicine clinics)

4-National Medical Health Care Clinics leader

All leaders of all National Alternative Health Care Clinics of a nation (private naturopathic alternative medicine clinics)

5-National Alternative Health Care Clinics leader

All leaders of all National Health, Wellbeing and Fitness facilities of a nation (private gyms etc.)

6-National Health, Wellbeing and Fitness facilities leader

All medical doctors

7-Medical Doctors leader

All naturopathic doctors

8-Naturopathic Doctors leader

All medical Health Care Workers (nurses, nurse-aids, orderlies, etc.)

9-Medical Health Care Workers leader

All alternative Health Care Workers

10-Alternative Health Care Workers leader

Central Nation Health Committee (CNHC)

1-UNWHO Nation representative

2-Central Nation Health Organization leader

3-National Medical Health Organizations leader

4-National Medical Health Care Clinics leader

5-National Alternative Health Care Clinics leader

6-National Health, Wellbeing and Fitness facilities leader

7-Medical Doctors leader

8-Naturopathic Doctors leader

9-Medical Health Care Workers leader

10-Alternative Health Care Workers leader

The Central Nation Health Committee (CNHC) presides over the Central Nation Health Organization, National Medical Health Organizations, National Medical Health Care Clinics, National Alternative Health Care Clinics, National Health, Wellbeing and Fitness Facilities, Medical Doctors, Naturopathic Doctors, Medical Health Care Workers and Alternative Health Care Workers.

The World Government's United Nations Allegiance Alliance (UNAA), the United Nations World Court (UNWC), the United Nations World Bank (UNWB) and the United Nations World Health (UNWH) will have 5 continental branches (The UNAA, UNCC, UNCB and UNCH of each "continent"). All the nations of the continents come together to talk, work and walk together. There is the World, intercontinental, continental, international and national levels of

representation. The UNAA, UNCC, UNCB and the UNCH are the UN World and continental branches.

The UNAA

Level 1: the UNAA (World Government)

Level 2: the UN Intercontinental Government

Level 3: the UN Continental Governments of Africa, America, Europe, Eurasia and Australia)

Level 4: the UN National Central Government representatives of all nations

FIRST LAYER: the UNAA (World Government)

SECOND LAYER: Intercontinental and Continental Governments

THIRD LAYER: International and National Governments

FOURTH LAYER: State or Provincial Governments

FIFTH LAYER: Regional, County, City, town, village or settlement Governments

The UNWC

Level 1: the UNWC (World Court)

Level 2: the UN Intercontinental Court

Level 3: the UN Continental Courts of Africa, America, Europe, Eurasia and Australia

Level 4: the UN National Central Court representatives of all nations

FIRST LAYER: the UNWC (World Court)

SECOND LAYER: Intercontinental and Continental Courts

THIRD LAYER: International and National Courts

FOURTH LAYER: State or Provincial Courts

FIFTH LAYER: Regional, County, City, town, village or settlement Courts

The UNWB

Level 1: the UNWB (World Bank)

Level 2: the UN Intercontinental Bank

Level 3: the UN Continental Banks of Africa, America, Europe, Eurasia and Australia

Level 4: the UN National Central Bank representatives of all nations

FIRST LAYER: the UNWB (World Bank)

SECOND LAYER: Intercontinental and Continental Banks

THIRD LAYER: International and National Banks

FOURTH LAYER: State or Provincial Banks

FIFTH LAYER: Regional, County, City, town, village or settlement Banks

The UNWH

Level 1: the UNWH (World Health)

Level 2: the UN Intercontinental Health

Level 3: the UN Continental Health of Africa, America, Europe, Eurasia and Australia

Level 4: the UN national Central Health representatives of all nations

FIRST LAYER: the UNWH (World Health)

SECOND LAYER: Intercontinental and Continental Health

THIRD LAYER: International and National Health

FOURTH LAYER: State or Provincial Health

FIFTH LAYER: Regional, County, City, town, village or settlement Health

It is very important to understand that a proper World government is absolutely needed in this World. This is not a globalist totalitarian or authoritarian government that is based on the super-elites and “absolute rulers”. This is a newly designed active “open source” dialogue democratic governance system to control, regulate, oversee and administer worldwide international affairs only. The national governments control, regulate,

oversee and administer nationwide national affairs only. In a nation there is no totalitarian or authoritarian dictatorship. The people are mostly left alone and need to be fully responsible and accountable or enlightened. They need to properly control, regulate, oversee and administer their local affairs. It is only when the local (provincial and municipal) affairs are not properly looked after that the state or nation government will interfere temporarily to correct matters. Provincial and municipal self-rule is the rigueur. The less the state or nation government is involved, the better.

The UNAA Continental Government, the UN Continental Court, the UN Continental Bank and the UN Continental Health of Europe for example will replace the dysfunctional European Union, which is made dysfunctional because of the divide between the “have” rich nations and the “have-not” poor nations. The nations that “have” dictate the European Union. In a Union all nations have equal rights, duties and responsibilities. The “laws” are dictated by a 70% “open source” dialogue democratic voting rule. The GNP product is the total value of all goods and services produced within a people nation in a year, including net income from investments in other countries. The “standard of life” or average national income is the gross national product divided by the total population or population unit. These are statistical economical measurements. All nations in this world are in need of a

limited equalization. The continental international differences are for example limited or set to the lowest 1 GNP/lowest average national income to the highest 10 GNP/highest average national income. In an advanced, enlightened human society, the differences over time become minimal because of the quality of sharing. In a truly enlightened World all nations and all peoples are equal under the human rights charter.

THE NEW LAW AND ORDER

1 The 196 members of the United Nations Allegiance Alliance (UNAA) of all people nations are controlled, regulated, overseen, administered, checked and balanced by the 196 Cabinet leaders of the Nation Governments and the Central World Committee (CWC). Each chosen people Nation Government chooses a UNAA people nation representative + staff. Each chosen people Nation Government chooses a Cabinet leader + staff. The 196 UNAA people nation representatives make up the UNAA World Government.

2 The 196 people Nation Governments are controlled, regulated, overseen, administered, checked and balanced by the 196 members of the UNAA of all people nations and the Central World Committee (CWC). The UNAA people nation representative, the leader of the government's cabinet, the leader of the public service, the leader of the constituency representatives, the UNWC representative, the leader of the Central Nation Court, the UNWB representative, the leader of the

Central Bank, the leaders of the national and foreign banks, the UNWH representative and the leader of the Central Health lead the government extension of a people nation.

The United Nations Allegiance Alliance is a brainstorming expert international think-tank centre to create the best World for all its peoples to live in. The government is a brainstorming expert national think-tank centre to create the best people nation for all its peoples to live in. A government extension represents the “Will or Voice of the People” and the unbiased intellectuals of an entire nation. The national government is made up of 200-400 national constituency representatives (equal in population), 15-20 cabinet portfolio leaders and 15-20 public service portfolio leaders.

3 The 196 members of the United Nations World Court (UNWC) of all people nations are controlled, regulated, overseen, administered, checked and balanced by the 196 leaders of the Central Nation Courts of all people nations. Each people Central Nation Court chooses a UNWC people nation representative + staff. The 196 UNWC people nation representatives make up the UNWC.

4 The 196 Central Nation Court leaders are controlled, regulated, overseen, administered, checked and balanced by the 196 members of the UNWC of all people nations and the Central World Committee (CWC). The

UNWC people nation representative, the leaders of the Central Nation Courts, the leaders of the national and international Courts, the leaders of the national and international legal offices, the 6 “Supreme” Central Nation Court Justices appointed by the nation’s Government and the Central Nation Court, lead the Central Nation Court of a people nation.

5 The 196 members of the United Nations World Bank (UNWB) of all people nations are controlled, regulated, overseen, administered, checked and balanced by the 196 leaders of the Central Nation Banks of all people nations. Each Central Nation Bank chooses a UNWB people nation representative + staff. The 196 UNWB people nation representatives make up the UNWB.

6 The 196 Central Nation Banks (CNB) of all people nations are controlled, regulated, overseen, administered, checked and balanced by the 196 members of the UNWB of all people nations and the Central World Committee. The UNWB people nation representative, the leader of the Central Nation Bank, the leader of the Nation Banks, the leader of the Foreign Nation Banks, the national and international business leaders, the financial institutions leader and the 6 bank Supervisors and Governors appointed by the nation’s Government and the Central Nation Court, lead the Central Nation Bank of a people nation.

7 The Nation Banks (NB) and Foreign Nation Banks (FNB) of a people nation are controlled, regulated, overseen, administered, checked and balanced by the Central Nation Bank. The Central Nation Bank representatives of a people nation is controlled, regulated, overseen, administered, checked and balanced by the Nation Banks and Foreign Nation Banks leaders.

The Central World Bank integrates all the functions of the BIS, IMF, IBRD, IDA (WB), IFC, MIGA and ICSID. The CWB functions as a humanitarian not-for-profit lender-borrower intermediary. The functional, operational and administrative structures are already there and can be used to implement the new structure of a **functional** operation. The present non-integrated banking system is complex, cumbersome, disorganized and dysfunctional. All shareholders and privately owned banks need to be co-operatively and collectively owned by its users and not by the bank board and its shareholders or its private owners. All banks become humanitarian not-for-profit, wealth sharing lender-borrower intermediaries. No person, group, family, company etc. can own a (private) bank.

8 National companies or corporations

A people nation's government representative, a CNB people nation representative and a NB people nation representative join the national company's or corporation's management team.

9 International companies or corporations

A people nation's government representative, a CNB people nation representative, a NB people nation representative and a FNB people nation representative join the international company's or corporation's management team.

A complete revolutionary planetary renovation and reorganization (restructure/reconstruction) of the monetary and banking financial system is very much needed in this World.

Most of the banks in the World are owned by the shareholders and the shareholders board. Some of the banks are privately owned. These banks are driven to profit the shareholders and the private owners. Some of the banks are cooperatively owned by the people member clients. This should become the main model of banks in this World. All banks should become caring, humanitarian not-for-profit driven financial institutions to help the people in general. There are only the branches of a peoples' "nation" bank in a nation. The foreign banks carry the name of their nation of origin. All banks of a nation should be strictly regulated, controlled, overseen, administered, checked and balanced by the government's Bank Act and supervised by a panel of 6 appointed Supervisors (3) and Governors (3). The banks look after their own functional and operational business self-interests, the interests of their client member base,

nature (minerals, plants, trees and animals), Humanity and planet Earth at large.

Order of reorganization: dismantle and disassemble the Bank for International Settlements (BIS), the International Monetary Funds (IMF), the World Bank and the World Bank Group (WBG) and replace it with one new Central World Bank. The present World Bank (WB) consists of the International Bank for Reconstruction and Development (IBRD) and the International Development Association (IDA). The World Bank Group (WBG) consists of the International Bank for Reconstruction and Development (IBRD), the International Development Association (IDA), the International Finance Corporation (IFC), the Multilateral Investment Guarantee Agency (MIGA) and the International Centre for Settlement of Investment Disputes (ICSID).
